Date 19th February, 1976.

c.c. Mr. Berthault, Europe Regional Office
c.c. Mr. Bingham, Industramar Ltd.,

Dear Sirs,

CHOCKFAST GRAY 610FR EPOXY
CHOCKING RESIN

FEB 23 1976

We thank you for your letter of the 26th January, 1976, with enclosures in respect of the above, the contents of which have been noted.

In reply we would advise you that no objection will be made to the proposed alterations to the chemical composition and physical properties of chockfast gray chocking compound having new properties as now shown in Bulletin No.902 - Chockfast gray backing compound PR-610 FR and the approval of this material for non-critical alignment applications remains valid.

It is understood from the telephone conversation on the 13th February, 1976, between Mr. Murray Wilson and Mr. Mansfield that the production of the original product of that name will cease and that the new product has similar requirements in respect of use and protection for operatives and the existing application instructions will remain applicable.

Yours faithfully,

P. H. Hayward
for the Secretary
